Vista® AR

Architectural Shingles – Aging, Algae, and Impact Resistant

Vista® AR [algae resistant] shingles are made with our patented NEX® Polymer Modified (SBS Rubberized) Asphalt, an innovative technology that infuses rubber and plastic polymers to strengthen the asphalt core of the shingle for superior impact resistance, granule adhesion, all-weather resilience, and aging longevity.

Vista® AR shingles are also sustainable. Upcycled polymers from used tires and plastic bags improve durability and aging resistance, while helping reduce landfill waste. And smog-reducing granules help clean the air of emission pollutants, like planting trees on your roof.

Sustainability without sacrificing performance.

BEST IN CLASS

Malarkey’s Vista® AR shingles are Best In Class – made with the industry’s leading technology [NEX® SBS rubberized asphalt], highest impact rating [Class 4], strongest sustainability [aging longevity, upcycled rubber & plastic, smog-reducing granules], and superior warranty protection for peace of mind.

BLACK OAK  MIDNIGHT BLACK  STORM GREY  WEATHERED WOOD  NATURAL WOOD
HEATHER  ANTIQUE BROWN  SIENNA BLEND  SILVERWOOD

Performance Engineered, Sustainably Designed

NEX® RUBBERIZED ASPHALT
Asphalt core of shingle is rubberized with virgin synthetic rubber polymers (SBS) to enhance shingle strength, flexibility, and aging resistance. Class 4 impact rating (highest rating possible). Insurance discounts may apply.

UPCYCLED RUBBER & PLASTIC
Polymers from recycled rubber and plastic improve shingle durability and aging resistance, while diverting the equivalent of ~5 rubber tires and ~3,200 plastic bags from the landfill per roof.1

RFID TAG (1 per 3-4 bundles)
Aides shingle identification, quality improvement, and lifecycle analysis.

ADHESIVE BONDS
Synthetic rubber adhesive (SEBS) resists dry-out and delivers extreme seal-down strength against high winds, wind-driven rain, and delamination. Up to 50% more laminate bonds and 2X the rain seals of standard shingles.

3M™ SMOG-REDUCING GRANULES
Clean the air of emission pollutants. Each roof has the smog-fighting potential of ~2 trees.2

3M™ COPPER GRANULES
Reduce black streaks caused by algae growth. 15-year algae warranty.

Malarkey Industry Firsts

1 Assumes roof of 30 squares.
2 Assumes roof of 30 squares. Source: Lawrence Berkeley National Laboratory and 3M.

Disclaimer: Photographs of shingles may not accurately represent their true color or the variations of color blends that will appear on the roof. Before installation, five or six shingles should be laid out and reviewed for desired color. Colors and specifications subject to change without notice. Shingle colors not available in all regions.
